

Quality Hour – Jul Edition (Live Webcast)

The July edition of our monthly webinar series will be held on July 30, 2025. This live session will give you an update of USP Reference Standards as well as USP initiatives and activities in Asia Pacific. This month we will also discuss about **Nitrosamines Impurities: Past, Present and Future**.

For this month's session you will be able to:

- *Advancements in analytical technologies for improved detection.*
- *Regulatory updates from agencies like the FDA and EMA on intake limits and guidance.*
- *Predictive risk assessments and next-gen manufacturing controls to reduce nitrosamine formation.*
- *Case studies showcasing effective cross-functional collaboration (R&D, quality, regulatory) to manage contamination risks and ensure compliance across product lines*
